

Model: CPFWT

7'6" High Canopy Scaffold Frame - 6' Wide

Stud centers: 4'-0" & 2'-0"

Weighs: 65 lbs.

The 6'-0" wide X 7'-6" high frame can be used at street level to provide a pedestrian walkway with plenty of head room. The CPFWT can also support a standard 5'-0" wide scaffold work tower using a curved base plate.

Tube Specifications
