

## GRILLON L52A

### Quick adjustment anchor

*The GRILLON adjustable anchors are useful for setting a fixed anchor point in many situations. The length of the rope required for the anchor is very easy to adjust for the specific terrain using the integrated pivoting cam.*

#### Selling points

- The self-locking device allows easy adjustment of length and tension at the anchor point
- Semi-static rope, resistant to aging and abrasion
- Sewn terminations with plastic sheath on both ends help keep the connector in position and help protect the rope from abrasion
- Tie a mule knot behind the GRILLON to lock the anchor

#### Specifications

Available in four lengths (without connector):

- GRILLON (L52A 002): 2m, 435g
- GRILLON (L52A 003): 3m, 515g
